Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Koehler argued that experimentation was the primary purpose for including a "passive damper" in the sold device because the original order of the device only called for an active damper in the device and the "passive damper" was included in the device that was delivered to the client for experimentation purposes only without notifying the client. Subsequent tests were then conducted on the delivered device using only the "passive damper". Applicant's arguments will be taken into consideration when an Official response is filed. No commitment on patentability was made.
